

AM CHECKOUT SYSTEM

AM CONTROLLER UNIT PEDESTALS

Powerful yet cost-effective AM (Acousto-Magnetic) system designed specifically for strong detection of adhesive labels in cash-desk configurations. The AM CHECKOUT system is an NG (Next-Generation) product that is suitable for hypermarkets, supermarkets, and other stores with multiple checkout lanes.

The slim and lightweight antenna is mounted directly to the cash desk to save valuable space and to keep the floor intact. Integrated shopping trolley protection ensures durability, while our AM Controller provides the same great features and performance as our standard AM pedestals. An unlimited number of checkout aisles can be secured quickly and easily, with no additional cabling required in the floors.

The AM CHECKOUT system can also be connected to the StoreMonitor cloud or upgraded with wireless communication for easy data collection and maximum security.

STOREMONITOR COMPATIBLE 

Features & options:

- Remote maintenance and diagnostics
- Wireless communication
- StoreMonitor connectivity
- Power saving mode
- Additional alarm outputs
- Jammer detector
- Tag too close indication
- Up to 2 checkout antennas per 1 controller unit

Remote connectivity with our eComm module ensures that our systems are not only easy to install but can also be serviced and maintained remotely with fast response and without unnecessary travel costs.

On top of remote connectivity our AM system now features **wireless in-store communication** which makes the installation and maintenance of the system very flexible and cost effective. Setting up and adjusting our system has never been easier or faster.

SYSTEM SPECIFICATIONS

AM CHECKOUT SYSTEM

FEATURES / OPTIONS

INTEGRATED VISITOR COUNTING ^{3,5}	✗
SMART DIRECTIONAL ALARMS ³	✗
REMOTE MAINTENANCE AND DIAGNOSTICS ⁵	○
WIRELESS COMMUNICATION	○
POWER SAVING MODE	✓
STANDARD COLOUR OPTIONS	WHITE
SPECIAL COLOUR OPTIONS	BLUE / RED / SILVER

DIMENSIONS

HEIGHT	151.0 cm
WIDTH	39.5 cm
DEPTH	2.0 cm
WEIGHT	6.1 kg

DETECTION RANGE

DETECTION RANGE SOFT LABELS ¹	MONO up to 110 cm
DETECTION RANGE HARD TAG ²	MONO up to 140 cm

PRODUCT CODES

RED	AS-CKOR
BLUE	AS-CKOU
WHITE	AS-CKOW
SILVER	AS-CKOS

AM Controller Unit

DIMENSIONS (H×W×D)	13.0 × 26.3 × 29.6 cm
WEIGHT	6.7 kg
PRODUCT CODE	AS-CUV2

Legend: ✓ included ✗ not available ○ optional.

¹tested with original DR labels in all orientations. ²tested with original AMERSEC[®] pencil tags in all orientations. ³minimum of 2 pedestals required. ⁴visitor counting sensors required. ⁵e-COMM communication module required with a Storemonitor account. ⁶MMS Controller unit required.

System specification

Operating frequency – 58 kHz
Power – 110–240 V, 50–60 Hz
Consumption – 120 W
